Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 30-32 and 34-37 are rejected under 35 U.S.C. 102(b) as being anticipated by Owens, US #3,999,317.

3. Regarding claims 30 and 37 (and claims dependent therefrom), Owens discloses a security portfolio comprising a folded sheet having first panel 20 connected to third panel 15 by first fold 24 and third panel 15 connected to second panel 27 by second fold 31. The inside surface of the first panel (Figure 4) includes an identification holder (pocket 21, having transparent portion 23) configured to receive a portion of a document. The outside surface of the second panel (Figures 4 and 1) is configured to removably secure second document 29 through transparent portion 30. The inside surface of the third panel is configured to receive a portion of an identification document in pocket 16. The identification document fits at least partially in the holder.

4. Regarding claims 35 and 36, panel 27 is the first panel and panel 20 is the second panel.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 3611

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

6. Claim 33 is rejected under 35 U.S.C. 103(a) as being unpatentable over Owens in view of Parisi, US #3,058,506.

7. Owens, as described above, does not specifically teach the portfolio as being made of plastic, however this is well known in the art as shown by Parisi. Parisi teaches a document holder made of plastic (column 1 lines 10-16). It would have been obvious to a person having ordinary skill in the art to utilize plastic to form the holder of Owens since plastic is well known (as taught by Parisi) and Owens suggests constructing the holder in a compact and inexpensive manner (column 1 lines 44-45). Also, It would have been obvious to one of ordinary skill to construct the holder from plastic since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. *In re Leshin*, 125 USPQ 416.
